Implement SAP DRC with TJC Group

Minimise risks with a Proactive Approach based on SAP Activate Methodology.

- Niche knowledge SAP + TAX + Technology**
 The TJC Group's knowledge covers SAP solutions, tax, and technology. The company's vast expertise can bridge the gap between stakeholders while creating synergy between the tax and IT teams.
- Initial Project Scoping**
 Thorough analysis of the legal requirement and SAP DRC functionality. Invoice flow analysis to understand the business requirements. Fit/gap analysis to develop a gap closure strategy.
- Smooth Implementation**
 Execution, monitoring and controlling of the implementation phases. SAP Activate Quality Gates at the end of each phase to ensure all key deliverables and actions have been completed according to best practices.
- Application Management Services**
 SAP provides 8x5 support, giving businesses the service needed to keep SAP DRC operating optimally. By outsourcing this service, businesses save on hiring and training internal people.
